

**MAYOR'S MESSAGE**

The Town of Halton Hills Activity & Service Guide is your window to recreation and healthy living in Halton Hills. Already it has been a busy year, with the opening of the accessible dock at the shore of Fairy Lake in Prospect Park. The spring and summer months also marked the successful launch of the Active Easy initiative, focused on making active choices the easy choices. This year there were six Open Streets events, the Toys in Parks program, and the much-loved "Active Easy Rocks" concept. Over the coming months look for even more Active Easy projects like fitness features along local trails.

This fall, a new skatepark will open at the Gellert Community Centre. This installation will provide the Georgetown community with a cutting edge skatepark and even more options for recreation at this location. Residents can also enjoy swimming, fitness classes, soccer and baseball fields, walking trails, tennis, playground and a splash pad at this location.

In September, a new online registration system will make it easier and more convenient to manage your program registration and account details. Take an opportunity now and beat the rush by heading online to create your account today! Visit [www.haltonhills.ca/](http://www.haltonhills.ca/) register for more details on this exciting development.
