Why

It's great to be a volunteer!

Make Connections

It's not easy to make good friends and lasting connections. Volunteers are able to interact with a wide range of like-minded neighbours and residents, often forming bonds of friendship that make the job less like a place of work and more like the comfort of home. Maybe that's why volunteers report a higher quality of life.

Strengthen Community

Everyone benefits from community programs. Events and programs build a sense of community by allowing us to gather around a shared appreciation. Whether it's the joy on the faces of kids as they gather to watch a parade or attend a fair, or the assistance by a leader at swimming lessons or summer camp. By volunteering, we build a better, stronger, more resilient community.

Build Confidence

Step out and step into a supportive role where you will learn real-world skills. High school students will go far beyond just meeting the requirements of community service. They will gain marketable skills and experience to enter the workforce.

Aquatics volunteers help teach life-saving skills to new swimmers.
